Océ Plotwave 300

Introducing the Océ Plotwave 300. A revolutionary new single footprint reprographic system offering monochrome copying, printing and scanning as well as colour scanning in a compact, stylish, ultra quiet package with an upgrade path to make it the envy of many an office!

Produce 3 metre's per minute of plots and copies, scan to a network destination in monochrome and colour as well as scan to and print from a USB memory stick directly on the device, make this the greatest thing since sliced bread in reprographics. Radiant fusing of toner to media ensures long life and high, high quality output with new even finer toner, added to this simple and muscle free media changes and the cleanest of toner refills.....

The Plotwave 300 is here!
